

Cleaners & Degreasers

XENIT Citrus Mold Cleaner

Part # 93123

XENIT Natural Mold Cleaner quickly and easily removes resins, carbon deposits, silicons and contaminants from molds. XENIT Natural Mold Cleaner contains a proprietary cleaning formula with Citrus 66, a natural, highly refined extract of citrus fruit. With this powerful ingredient, XENIT can remove the greasy, grimy soils and stains that soap and water cannot. XENIT is a natural mold cleaner typically used as a degreaser in the plastics and rubber molding industries.

XENIT Citrus Degreaser

Part # 94213

You won't believe how quickly and easily XENIT (zee-nit) removes adhesives, tar, gum, grease, labels, ink, permanent marker and more. XENIT's proprietary formulation does not contain soap or water. You'll be amazed how quickly and easily XENIT lets you remove the stuff that soap and water can't clean. XENIT contains more than five high performance ingredients such as Citrus 66, an all natural, highly refined extract of citrus fruit. Unlike most water based cleaning agents that are designed to lift and carry dirt, XENIT is specially formulated to break down the complex molecules found in sticky materials. This unique

MicroActive cleaning action gives XENIT unequalled abilities to loosen and dissolve difficult grime. When you clean it with XENIT, you'll save yourself hours of agony trying to remove sticky stuff with standard duty cleaners, and avoid wasted time spent laboring with inferior water-based products.

Here's how to make easy work of sticky dirt: Clean it with XENIT. Even though XENIT's powerful, grime-cutting ingredients work quickly, they are harmless to most surfaces and materials when used as directed. In most applications, a little XENIT applied to a clean cloth or rag will work fine. For most cleaning challenges, always start with the most gentle solution first - such as soap and water. Then if necessary, proceed to use more powerful cleaning solutions like XENIT. As with all cleaning solutions, read the directions carefully before using.

12-can case of 10 oz. aerosols.

Benefits & Specifications:

- Dissolves and flushes away most release agents from metal molds prior to application of rust preventatives.
- Cleans molds, in or out of the press, by removing resins, carbon deposits and other contaminants left in the cavities.
- Should be sprayed on, then wiped dry or blown dry with compressed air.
- Dries fast and leaves no residue. Pleasant citrus scent. Non-halogenated.
- Contains no methylene chloride or Class I ozone depleating substances.
- For use in the manufacturing process only. Not for use as a general purpose cleaner or degreaser.
- 12-can case of 10 oz. aerosols.
