

# Paintable Mold Releases

## Rocket Release

### Part # E302

Stoner E302 Rocket Release is an extremely versatile release agent which is generally acceptable for applications where a food grade release is required. In many applications, Rocket Release is considered to be the most paintable release agent available when molding plastics and similar materials. Rocket Release allows molded parts to be painted, plated, hotstamped, adhesive bonded, labeled, or otherwise decorated in most applications. Provides a long lasting anti-stick film for fast, easy part removal from molds and multiple part releases per application. Improves molding efficiency in many processes including injection, vacuum form, and pour cast molding.

Economical - a light coating produces the best results.

### Paintable and Food Grade

#### Benefits & Specifications:

- The release agent in E302 meets FDA regulation 21 CFR 184.1400 as a agent in the manufacture of food contacting materials.
- Saves time by allowing molded parts to be removed quickly and easily from molds.
- Improves part appearance and reduces defects caused by sticking.
- Formulated to provide high levels of user and environmental safety.
- Contains no Class I or Class II ozone depleting substances.
- Contains no chlorofluorocarbon (CFC) or hydrochlorofluorocarbon (HCFC) propellants or solvents.
- Colorless and non-staining.
- 12-can case of 12 oz. aerosols.

Quantity Discounts E302	
Number of Cases	Price
1 - 5 Cases	\$60.20
6 - 24 Cases	\$54.78
25+ Cases	\$49.36

We accept blanket orders for monthly, quarterly or annual usage.

## Release & Paint

### Part # E313

Stoner E313 is specially formulated as a paintable release agent and anti-stick lubricant for molded materials such as plastics, rubber, waxes, and similar materials. Allows molded parts to be painted, plated, hotstamped, adhesive bonded, labeled, or otherwise decorated. Provides a long lasting anti-stick film for fast, easy part removal from molds and multiple part releases per application. Improves molding efficiency in many processes including injection, compression, transfer, vacuum form, pour cast, die cast, and extrusion molding. Economical - a light coating produces the best results.

**Paintable  
and  
UL Recognized**

#### Benefits & Specifications:

- Saves time by allowing molded parts to be removed quickly and easily from molds.
- Allows molded parts to be painted, hotstamped, or otherwise decorated.
- Improves part appearance and reduces defects caused by sticking.
- Formulated to provide high levels of user and environmental safety.
- Contains no Class I or Class II ozone depleting substances.
- Contains no chlorofluorocarbon (CFC) or hydrochlorofluorocarbon (HCFC) propellants or solvents.
- Contains no chlorinated solvents such as 1,1,1 trichloroethane or methylene chloride.
- Colorless and non-staining.
- UL Recognized.
- 12-can case of 12 oz. aerosols.

Quantity Discounts E313	
Number of Cases	Price
1 - 5 Cases	\$63.30
6 - 24 Cases	\$57.60
25+ Cases	\$51.91

We accept blanket orders for monthly, quarterly or annual usage.

# Paintable Mold Releases

## Heavy Duty Release & Paint

### Part # E317

Stoner E317 is specially formulated as a paintable release agent and anti-stick lubricant for molded materials such as plastics, rubber, waxes, and similar materials. Allows molded parts to be painted, plated, hotstamped, adhesive bonded, labeled, or otherwise decorated. Provides a long lasting, heavy duty anti-stick film for fast, easy part removal from molds and multiple part releases per application. Improves molding efficiency in many processes including injection, compression, transfer, vacuum form, pour cast, die cast, and extrusion molding. Economical - a light coating produces the best results.

*For  
Stubborn Part  
Removal*

### Benefits & Specifications:

- Saves time by allowing molded parts to be removed quickly and easily from molds.
- Allows molded parts to be painted, hotstamped, or otherwise decorated.
- Improves part appearance and reduces defects caused by sticking.
- Formulated to provide high levels of user and environmental safety.
- Contains no Class I or Class II ozone depleting substances.
- Contains no chlorofluorocarbon (CFC) or hydrochlorofluorocarbon (HCFC) propellants or solvents.
- Contains no chlorinated solvents such as 1,1,1 trichloroethane or methylene chloride.
- Colorless and non-staining.
- 12-can case of 12 oz. aerosols.

Quantity Discounts E317	
Number of Cases	Price
1 - 5 Cases	\$70.50
6 - 24 Cases	\$64.16
25+ Cases	\$57.81
We accept blanket orders for monthly, quarterly or annual usage.	

## Zero Stick Paintable Mold Release

### Part # E342

Stoner E342 Zero Stick Paintable Mold Release, is a unique, extremely versatile release agent which is generally acceptable for applications where food grade release is required. Zero Stick allows molded parts to be painted, plated, hotstamped, adhesive bonded, labeled or otherwise decorated in most applications. Zero Stick provides a long lasting anti-stick film for fast, easy part removal from molds and multiple part releases per application. Improves efficiency in many processes including injection, vacuum form, and pour cast molding. Economical - a light coating produces the best results.

*Paintable, Food Grade  
and  
UL Recognized*

### Benefits & Specifications:

- The release agent in Zero Stick meets FDA regulation 21 CFR 184.1400, as an agent in the manufacture of food contacting materials.
- Saves time by allowing molded parts to be removed quickly and easily from molds.
- Improves part appearance and reduces defects caused by sticking.
- Formulated to provide high levels of user and environmental safety.
- Contains no Class I or Class II ozone depleting substances.
- Contains no chlorofluorocarbon (CFC) or hydrochlorofluorocarbon (HCFC) propellants or solvents.
- Colorless and non-staining.
- Contains no chlorinated solvents such as 1,1,1 trichloroethane or methylene chloride.
- 12-can case of 12 oz. aerosols.

Quantity Discounts E342	
Number of Cases	Price
1 - 5 Cases	\$79.24
6 - 24 Cases	\$72.11
25+ Cases	\$64.98
We accept blanket orders for monthly, quarterly or annual usage.	

# Paintable Mold Releases

## Mold Release & Ejector Pin Lube

### Part # E436

Stoner E436 is specially formulated as a release agent and anti-stick lubricant for molded materials such as plastics, rubber, and similar materials. Allows molded parts to be painted, plated, hotstamped, adhesive bonded, labeled or otherwise decorated in most applications. Provides a long lasting anti-stick film for fast, easy part removal from molds and multiple part releases per application. Improves efficiency in many processes including injection, vacuum form, and pour cast molding. Economical - a light coating produces the best results.

*Paintable  
and  
Food Grade*

### Benefits & Specifications:

- Saves time by allowing molded parts to be removed quickly and easily from molds.
- Also serves as a lubricant for ejector pins.
- Improves part appearance and reduces defects caused by sticking.
- Formulated to provide high levels of user and environmental safety.
- Contains no Class I or Class II ozone depleting substances.
- Contains no chlorofluorocarbon (CFC) or hydrochlorofluorocarbon (HCFC) propellants or solvents.
- Contains no chlorinated solvents such as 1,1,1 trichloroethane or methylene chloride.
- Colorless and non-staining.
- 12-can case of 12 oz. aerosols.

Quantity Discounts E436	
Number of Cases	Price
1 - 5 Cases	\$67.40
6 - 24 Cases	\$61.33
25+ Cases	\$55.27

We accept blanket orders for monthly, quarterly or annual usage.

## Dry Film Mold Release

### Part # E408

Stoner E408 is an extremely versatile release agent and anti-stick lubricant for molded materials such as plastics, rubber, composites, and similar materials. This dry, anti-stick surface coating provides fast, easy part removal from molds and multiple part releases per application. Stoner E408 contains no silicones, oils, or waxes and most molded parts do not require cleaning prior to painting, hotstamping, plating, or similar decorating. Improves molding efficiency in many processes including injection, compression, transfer, vacuum form, pour cast, die cast and layup molding.

*Paintable  
and  
Highly Versatile*

### Benefits & Specifications:

- Saves time by allowing molded parts to be removed quickly and easily from molds.
- Formulated to provide high levels of user and environmental safety.
- Improves part appearance and reduces defects caused by sticking.
- Contains no Class I or Class II ozone depleting substances.
- Contains no chlorofluorocarbon (CFC) or hydrochlorofluorocarbon (HCFC) propellants or solvents.
- Contains no chlorinated solvents such as 1,1,1 trichloroethane or methylene chloride.
- Colorless and non-staining.
- 12-can case of 12 oz. aerosols.

Quantity Discounts E408	
Number of Cases	Price
1 - 5 Cases	\$82.20
6 - 24 Cases	\$74.80
25+ Cases	\$67.40

We accept blanket orders for monthly, quarterly or annual usage.

# Economy Mold Releases

## OUT - Food Grade & Paintable Release

### Part # A302

Stoner OUT A302 is an extremely versatile release agent which is generally acceptable for applications where a food grade release is required. In many applications, A302 is considered to be the "most paintable" release agent available when molding plastics and similar materials. Stoner A302 allows molded parts to be painted, plated, hotstamped, adhesive bonded, labeled, or otherwise decorated in most applications. Provides a long lasting anti-stick film for fast, easy part removal from molds and multiple part releases per application. Improves molding efficiency in many processes including injection, vacuum form, and pour cast molding. Economical - a light coating produces the best results.

## OUT - Dry Film Mold Release

### Part # A313

Stoner A313 is specially formulated as a food grade release agent and anti-stick lubricant for molded materials such as plastics, rubber, waxes, and similar materials. Allows molded parts to be painted, plated, hotstamped, adhesive bonded, labeled, or otherwise decorated. Provides fast, easy part removal from molds and multiple part releases per application. Improves molding efficiency in many processes including injection, compression, transfer, vacuum form, pour cast, die cast, and extrusion molding. Economical - a light coating produces the best results.

**Paintable  
and  
Highly Versatile**

### Benefits & Specifications:

- Allows molded parts to be painted, plated, hotstamped or otherwise decorated.
- Improves part appearance and reduces defects caused by sticking.
- Formulated for maximum performance and economy.
- Contains no Class I or Class II ozone depleting substances.
- Contains no chlorofluorocarbon (CFC) or hydrochlorofluorocarbon (HCFC) propellants or solvents such as HCFC 141b or HCFC 142b.
- Contains no chlorinated solvents such as 1,1,1 trichloroethane or methylene chloride.
- Colorless and non-staining.
- 12-can case of 12 oz. aerosols.

Quantity Discounts A302	
Number of Cases	Price
1 - 5 Cases	\$36.60
6 - 24 Cases	\$33.31
25+ Cases	\$30.01
We accept blanket orders for monthly, quarterly or annual usage.	

### Benefits & Specifications:

- Saves time by allowing molded parts to be removed quickly and easily from molds.
- Formulated for maximum performance and economy.
- Improves part appearance and reduces defects caused by sticking.
- Contains no Class I or Class II ozone depleting substances.
- Contains no chlorofluorocarbon (CFC) or hydrochlorofluorocarbon (HCFC) propellants or solvents such as HCFC 141b or HCFC 142b.
- Contains no chlorinated solvents such as 1,1,1 trichloroethane or methylene chloride.
- Colorless and non-staining.
- 12-can case of 12 oz. aerosols.

Quantity Discounts A313	
Number of Cases	Price
1 - 5 Cases	\$36.60
6 - 24 Cases	\$33.31
25+ Cases	\$30.01
We accept blanket orders for monthly, quarterly or annual usage.
