

Specialized Mold Releases

Zinc Stearate Mold Release

Part # E474

Stoner E474 is a dry powder, heavy duty release agent and anti-stick lubricant for molded materials such as plastics, rubber, and similar materials. Allows molded parts to be painted, plated, hotstamped, adhesive bonded, labeled, or otherwise decorated in most applications. Provides a long lasting film for fast, easy part removal from molds and multiple part releases per application. Improves molding efficiency in many processes including injection, compression, transfer, vacuum form, pour cast, die cast and extrusion molding.

Economical - a light coating produces the best results. Zinc stearate is generally regarded as suitable for applications requiring a food grade mold release.

Excellent for Mold Start-up or Hard-to-Release Parts

Benefits & Specifications:

- Saves time by allowing molded parts to be removed quickly and easily from molds.
- Excellent for mold start-up or hard-to-release parts.
- Formulated to provide high levels of user and environmental safety.
- Contains no Class I or Class II ozone depleting substances.
- Contains no chlorofluorocarbon (CFC) or hydrochlorofluorocarbon (HCFC) propellants or solvents.
- Contains no chlorinated solvents such as 1,1,1 trichloroethane or methylene chloride.
- Colorless and non-staining.
- 12-can case of 12 oz. aerosols.

Quantity Discounts E474	
Number of Cases	Price
1 - 5 Cases	\$93.60
6 - 24 Cases	\$85.18
25+ Cases	\$76.75
We accept blanket orders for monthly, quarterly or annual usage.	

Thermoset Mold Release

Part # E455

Stoner E455 is specially formulated as a release agent and anti-stick lubricant for molded thermoset plastics, rubber, and similar materials. Provides a long lasting, thin layer, anti-stick film for fast, easy part removal from molds and multiple part releases per application. Improves molding efficiency in many processes including pour cast, injection, compression, and transfer molding. Great for mold start-up and quick mold touch up.

Formulated for Thermoset Materials

Benefits & Specifications:

- Saves time by allowing molded parts to be removed quickly and easily from molds.
- Formulated to provide high levels of user and environmental safety.
- Improves part appearance and reduces defects caused by sticking.
- Contains no Class I or Class II ozone depleting substances.
- Contains no chlorofluorocarbon (CFC) or hydrochlorofluorocarbon (HCFC) propellants or solvents.
- Contains no chlorinated solvents such as 1,1,1 trichloroethane or methylene chloride.
- Contains no silicones or oils.
- 12-can case of 12 oz. aerosols.

Quantity Discounts E455	
Number of Cases	Price
1 - 5 Cases	\$64.00
6 - 24 Cases	\$58.24
25+ Cases	\$52.48
We accept blanket orders for monthly, quarterly or annual usage.	

Thermoset Mold Release

Part # E497

Stoner E497 is specially formulated as a release agent and anti-stick lubricant for molded thermoset plastics, rubber, and similar materials. Provides a long lasting, thin layer, anti-stick film for fast, easy part removal from molds and multiple part releases per application. Improves molding efficiency in many processes including pour cast, injection, compression, and transfer molding. Great for mold start-up and quick mold touch up.

*Formulated
for
Thermoset
Materials*

Benefits & Specifications:

- Saves time by allowing molded parts to be removed quickly and easily from molds.
- Formulated to provide high levels of user and environmental safety.
- Improves part appearance and reduces defects caused by sticking.
- Contains no Class I or Class II ozone depleting substances.
- Contains no chlorofluorocarbon (CFC) or hydrochlorofluorocarbon (HCFC) propellants or solvents.
- Contains no chlorinated solvents such as 1,1,1 trichloroethane or methylene chloride.
- Contains no silicones or oils.
- 12-can case of 12 oz. aerosols.

Quantity Discounts E497	
Number of Cases	Price
1 - 5 Cases	\$59.20
6 - 24 Cases	\$53.87
25+ Cases	\$48.54

We accept blanket orders for monthly, quarterly or annual usage.

Endurance Mold Release

Part # A353

Stoner A353 Endurance Mold Release is specially formulated as a long lasting, non-transferring release agent and anti-stick mold coating for molded rubber and similar materials. Provides a permanent yet removable, thin layer, anti-stick mold surface coating for fast, easy part removal from molds. A single application will allow multiple molding cycles. When the mold eventually begins to stick, often the sticking area alone can be "touched up" quickly and allow continued molding with minimal production delay. Improves molding efficiency in many processes including injection, compression, and transfer molding.

*Designed
to Release
Rubber
Compounds*

Benefits & Specifications:

- Endurance mold release coating will not transfer to rubber compound or interfere with delicate compound chemistry.
- Saves time by allowing molded parts to be removed quickly and easily from molds.
- Improves part appearance and reduces defects caused by sticking.
- Contains no Class I or Class II ozone depleting substances.
- Contains no chlorofluorocarbon (CFC) or hydrochlorofluorocarbon (HCFC) propellants or solvents.
- Contains no chlorinated solvents such as 1,1,1 trichloroethane or methylene chloride.
- 12-can case of 10 oz. aerosols.

Quantity Discounts A353	
Number of Cases	Price
1 - 5 Cases	\$116.50
6 - 24 Cases	\$106.02
25+ Cases	\$95.53

We accept blanket orders for monthly, quarterly or annual usage.
